### Updated Informative Digest/Policy Statement Overview

Current regulations require steelhead anglers to have a Steelhead Trout Report-Restoration Card in their possession when fishing for steelhead in anadromous waters of the State. Anglers are required to record with a ball-point pen the month, day, catch area, number of steelhead caught and kept, and the number of steelhead caught and released. The report card is valid for a calendar year, and the angler is required to retain the card until April 30 of the following year. Prior to April 30 the Department selects a random sample of anglers to be contacted to provide catch and angling information.

Effective January 1, 2003, AB 2783 amended Section 7380 of the Fish and Game Code requiring cardholders to return the cards to the Department according to a schedule or date established by the Department. Using the authority of Section 7380, the Department is proposing to require steelhead report card holders to return cards to the Department no later than January 31 of the year following the cards' expiration. In addition, Section 7380 of the Fish and Game Code requires anglers to immediately record certain information on the report card whenever the cardholder finishes fishing for the day, moves to another river or stream, or retains a steelhead trout. Current regulations do not require the recording action to be immediate. The Department is proposing that this requirement be added to Subsection 1.74(b), Title 14, CCR.

Minor grammatical changes have been made to improve the clarity and consistency of the regulations.

The Commission adopted the proposed regulations as proposed without changes.

Subsection 1.74(b) Title 14, CCR is amended to read:

**1.74. Salmon Punch Card and Steelhead Trout Catch Report Card Requirements.**

(b) Anglers must have a nontransferable Steelhead Trout Catch Report-Restoration Card issued by the department in their possession while fishing for steelhead trout in anadromous waters (see Section 1.04 for definition of anadromous waters). For purposes of this regulation, a steelhead trout is defined as any rainbow trout greater than 16 inches in length found in anadromous waters. Anglers must immediately record, with a ball-point pen, the month, day, catch area, number of steelhead caught and kept, and number of steelhead caught and released whenever the cardholder finishes fishing for the day, moves to another river or stream, or retains a steelhead trout.

A report-restoration card shall be valid for the calendar year. When the card becomes completely filled in, a person may purchase another card. ~~Anglers are not required to return the card to the department. A random sample of anglers will be chosen and contacted by the department to provide catch and angling information.~~ Anglers must retain ~~return~~ their card until April 30 by January 31 of the following year to California Department of Fish and Game, NAFWB, Steelhead Report Card, P.O. Box 944209, Sacramento, CA 94244-2090.

Revenue received from the sale of the cards may only be expended to monitor, restore, or enhance steelhead trout resources and to administer the report-restoration-card program. The card shall contain a statement explaining potential uses of the funds received.

The department may charge a fee for each card issued to defray printing and related administrative costs and to provide funds to monitor and restore California's steelhead populations. The amount of said fee shall be \$3.00 as adjusted pursuant to sections 713 and 1055 of the Fish and Game Code.
